/ identity /

By proposing identity as its main theme, JIPFest wishes to explore of how photography can enlighten us in understanding the social constructions that shape who we are and how we (should) behave. The festival features documentary projects that demonstrate how identity manifests itself in various fields, from fashion to architecture to culinary trend—identity as a source of cultural expression and inspiration for creativity. Additionally, JIPFest presents works that criticize real problems inherited from the concept of identity as a biological classification or legacy of colonialism, and as a community's effort to sustain itself or merely a tool to shake the establishment. Identity is also a theme that is strongly relevant for Indonesia in particular. With more than 700 documented living languages and 300 ethnic groups, the world's largest archipelago is also one of the world's capitals of diversity.

Mengusung tema identitas, JIPFest ingin mengeksplorasi bagaimana fotografi memberi pencerahan dalam memaknai konstruksi sosial yang membentuk siapa kita dan bagaimana kita (sepatutnya) berperilaku. Karya-karya dalam JIPFest memperlihatkan bagaimana identitas mengejawantah di beragam bidang, misalnya mode busana, tren arsitektur, dan tradisi kuliner—identitas sebagai sumber ekspresi kultural dan ilham kreativitas. Selain itu, JIPFest memamerkan karya-karya yang mengkritisi problem-problem riil yang lahir dari konsep identitas, baik identitas sebagai buah klasifikasi biologis, warisan kolonialisme, atau preservasi kelompok. Identitas adalah tema yang juga relevan bagi Indonesia. Memiliki lebih dari 700 bahasa dan 300 grup etnis, negara kepulauan terbesar ini juga merupakan salah satu negara dengan tingkat kemajemukan tertinggi.
